

My wife and I are raising 3 children and greatly appreciate the quality of programming on K-Love radio, and listen to it daily. K_LOVE must continue it's presence to give parent's like us an alternative to those FM stations that only appear interested in expressing vulgar sounds and impressions. I think the public is much better served by the positive and encouraging messages on K-Love than the demeaning and insulting discussions and crass humor heard on local FM stations.

Thank you for considering my comments.
